

Water Cooling Air Cooler

Industrial and commercial special chillers for fast cooling. There are three gears, can be adjusted according to their own needs, can be a large area of air supply, rapid cooling.

Experience superior climate control with our industrial water cooling portable air cooler fan. Designed to deliver powerful and efficient cooling, this portable air cooler is perfect for large industrial and commercial spaces. Its water cooling technology ensures effective temperature reduction, while the portable design allows for easy relocation to any area in need of cooling.

Voltage	Power (W)	Water Consumption	Water Tank	Air Volume (m³/h)	Applicable Area (m²)	Weight (KG)	External Dimensions (CM)
220V/50HZ	440	8-10L/H	70L	12000	80-100	43	92.5*58*144.4
